

Breathe gold luster into your skin.

GOLD LOTION

One fulfilling lotion in appearance and content that brings your whole body moist and luster...

This is a lotion for whole body which contains gold leaves that appear gorgeous. Because solid gold made into nano (one billionth meter) is combined in a colloid (jell) form, it quickly blends and gently conditions your skin. It is also combined with moisturizing components such as collagen and hyaluronic acid. With rose scent that smells delicately, you can also relax your mind...

You can use it as morning and evening lotion or apply it to your hot skin after getting out of the bath or after sunburn.
